

logger::ALogger

```
classDiagram
    class logger::FileLogger
    class logger::ALogger
    logger::FileLogger --|> logger::ALogger
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'logger::FileLogger'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'logger::ALogger'. This indicates that 'logger::FileLogger' inherits from 'logger::ALogger'.
